Subject: re: John Godbold School of Business

Mrs. Radford,

I am doing research regarding the old Dover Mills properties. In my research, I have seen there is a possibility that The John Godbold School of Business is planning a 12,000 square foot business incubator on this property. I am seeking clarification of this, so that I may rectify my research, as this would be a nice multi-million dollar project for the area.

Any information that you could share would be greatly appreciated. Thank you for your time and consideration.

Regards,

Hal Trammell

Hal,

Your email was sent my way. I'll check into this for you. Could you share with me your deadline?

Mr. Manning,

There is no deadline, as it is just research for now. But I would like to move as quickly as possible with this. I do appreciate your reply and your consideration.

Sincerely,

Hal Trammell

Hal,

Here's what I can share at the moment. It's not much, but it is something. Currently Gardner-Webb is in dialogue about the possibility of a future Godbold School of Business incubator project at the former Dover Mills in Shelby, NC. But we are only in the exploratory phase at the moment, and many things would have to fall into place before this ever could happen. We are only one small piece of a much larger puzzle. That is really all we're able to share at this time. I'll be happy to provide you with more as it becomes available.

I hope that helps.
